

WHAT OUR PATH PROGRAM FAMILIES ARE SAYING...

The sense of community at the school is unparalleled. It's more than just a place of education; it's a tight-knit community where families come together to support one another and where students are empowered to reach their fullest potential academically, socially, and emotionally.

~Anna, parent of 1st grade student at EHS

We immediately felt so welcomed. The social-emotional curriculum, specifically, is such an intentional part of the students' day-to-day activities and we love it. We've seen such an impact in how it helps the kids understand themselves and others better, especially when they disagree or are different from each other.

~Emily, parent of 5th grade student at EHS

We chose to join EHS because we simply needed more from a school for our children. Academically, the standards are just higher at EHS. Students are motivated, challenged, and provided with so much individualized support. It's actually hard to put into words to express what this beautiful school and community have done for our children and the impact it's had on our entire family. It has been very reassuring to know that our children are in an environment where there is a real sense of belonging."

~Vera, parent of 3rd and 1st grade students

EHS was hands-down the most positive, life-changing experience I've ever had. I transferred to EHS in the 7th grade, and I'm so happy with the person EHS brought out in me. The EHS community is such a supportive environment where the faculty and staff genuinely want to help you prepare life's obstacles. Before I came to EHS, I struggled with my Jewish identity and hid it from others. Since my time at EHS, I've really connected with Judaism and I'm very secure with my Jewish identity. EHS prepared me for high school academically and in so many other ways and shaped my life so positively.

~Jamison, EHS Alumna, Class of '22
